MRS. REBA COLLINS

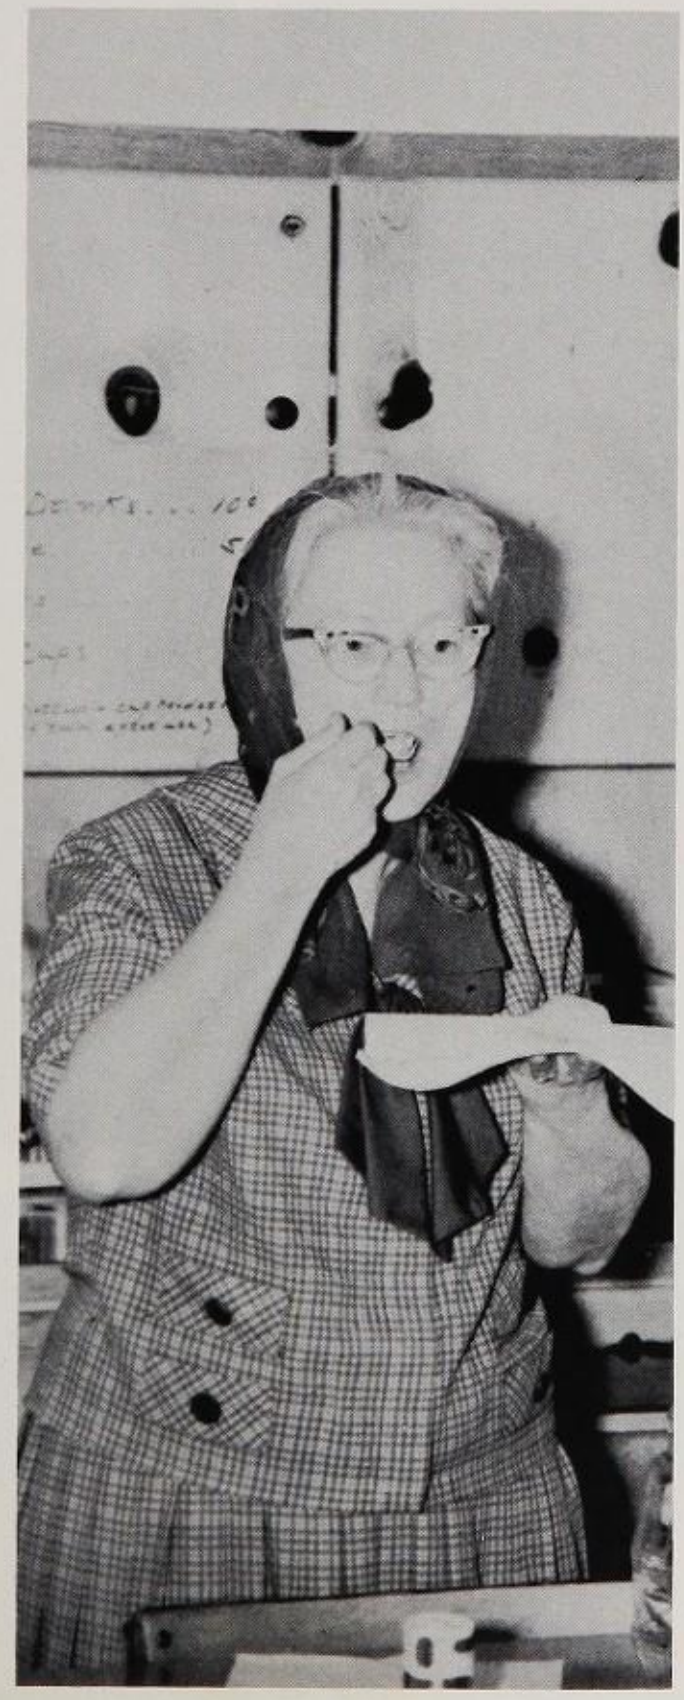
" . . . HATS OFF TO . . . "
MRS. COLLINS

That certain sparkle, a joking manner, and a hardy laugh—these are a few of the qualities which endear Mrs. Collins to the faculty and student body as well. Mrs. Collins displays an unselfish devotion to her students and is always ready to help a student who is interested and willing to work. Because of her interest in us and in mathematics, she catches our interest in her courses.

This marks Mrs. Collins' thirtieth year of teaching, sixteen of which have been in the Alvin Public School system. Since she has been here, she has helped to bring about improvements and changes in the math department.

Mrs. Collins graduated from Trinity University, where she received her B.A. in 1931. She completed work for her M.A. at the University of Houston. Always eager to improve her mathematical knowledge, Mrs. Collins has attended workshops at Trinity, S.M.U., University of Houston, and Peabody.

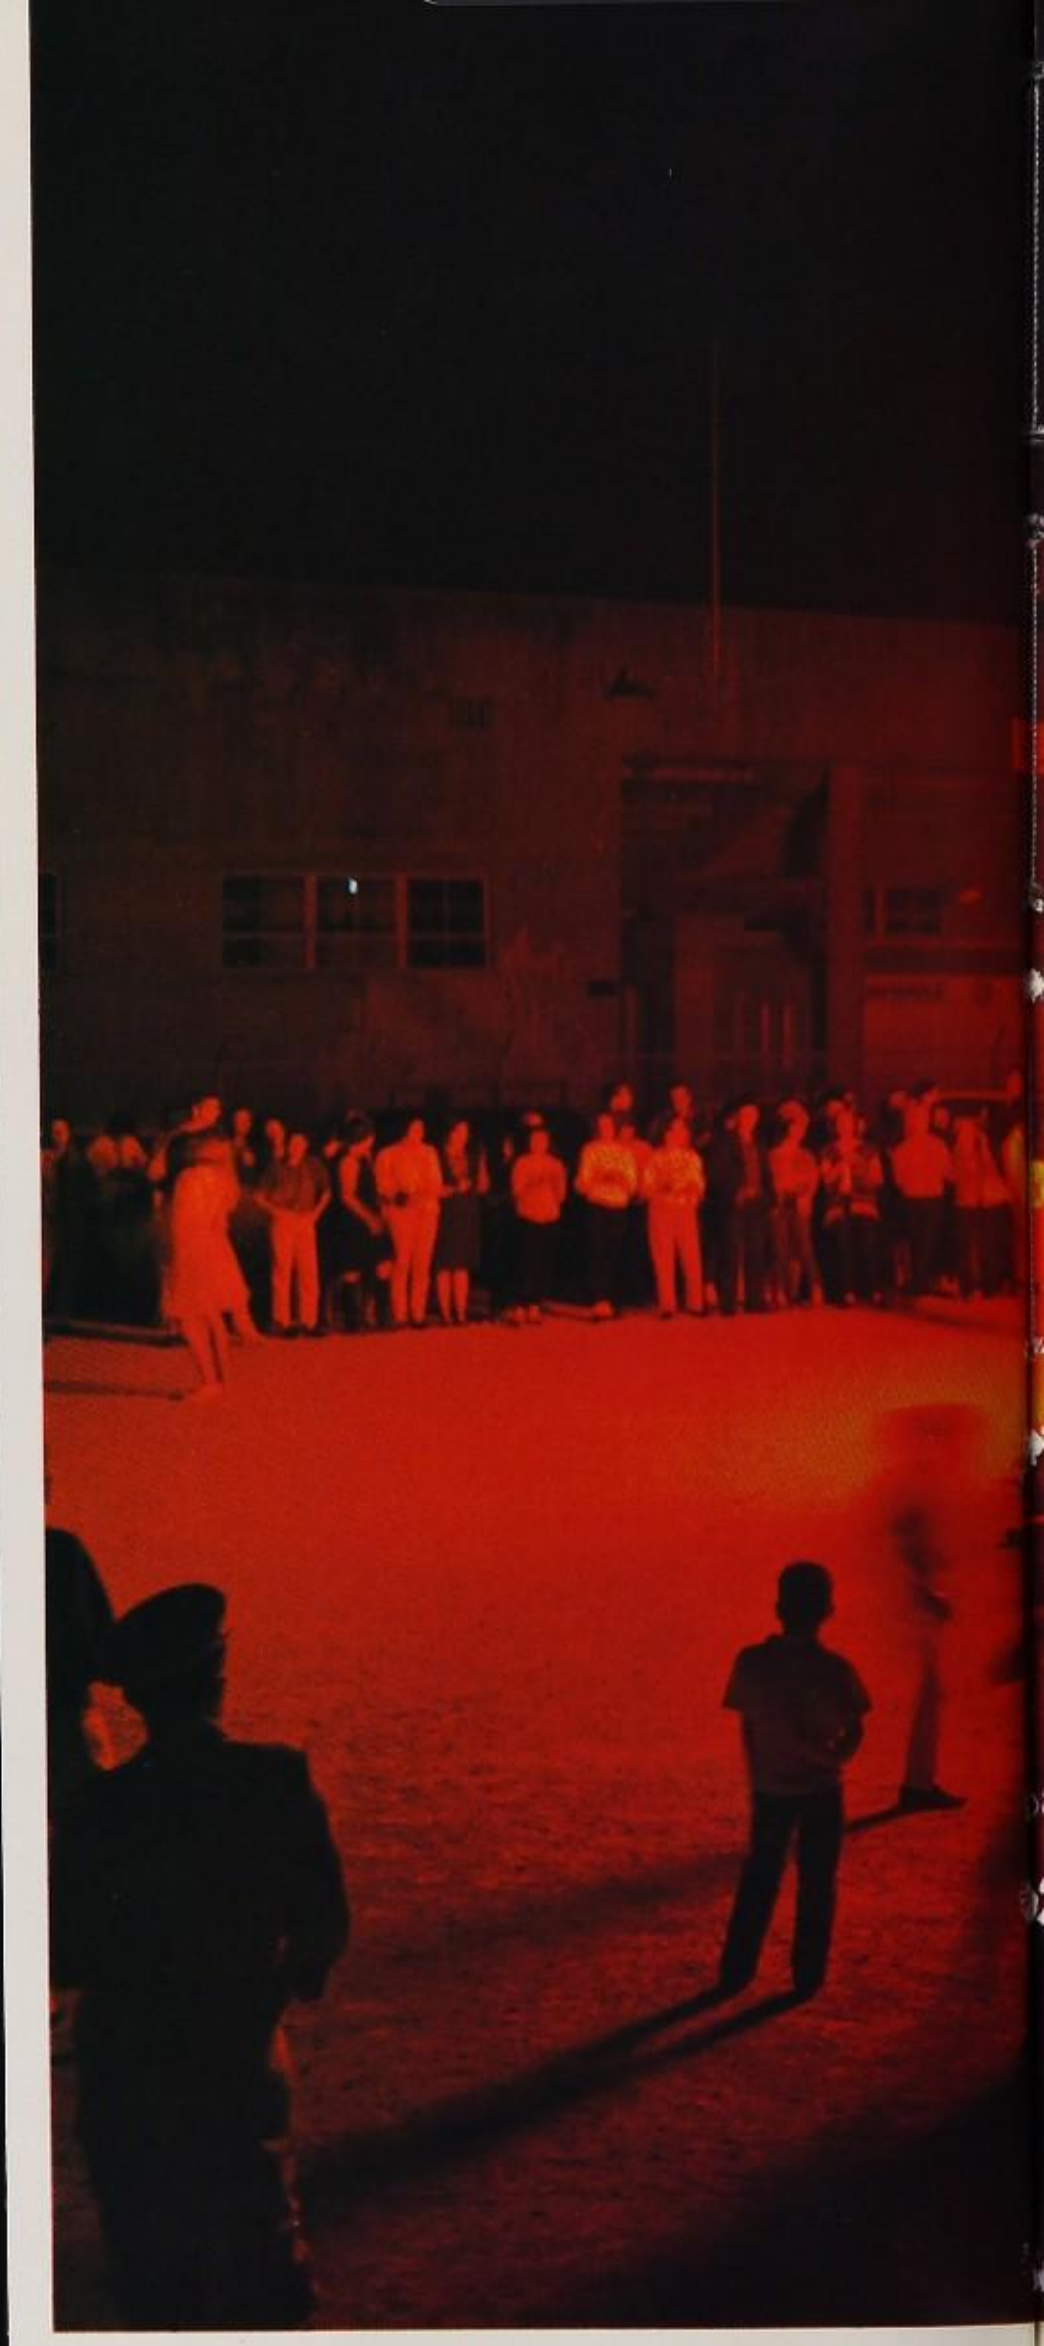
For her service to our school we dedicate this annual to Mrs. Reba Collins.



A hot September morning . . ., long registration lines . . ., school bells . . ., the feverish excitement before the bonfire . . ., the delight in receiving that first corsage . . ., the joy and sadness of graduation . . ., the empty halls after school . . ., all are a part of the spirit of AHS.

This intangible spirit makes AHS—the pep rallies . . ., the crowded halls . . ., the teachers . . ., the dances . . ., the friendship—all are a significant part of us. Because these things are very much a part of us, we say with pride and enthusiasm . . .

" . . . HATS OFF TO YOU . . . "



Activities are the life beat of the high school program. They offer the opportunity for some students to learn and participate and for others to relax and observe.

Our high school offers a wide variety of activities—everything from parades to proms. Students are encouraged to assume most of the responsibility involved in these activities without the aid of teachers and sponsors. The value and outcome of the activities is dependent upon the amount of time and work contributed by the students.

In looking back, we see all activities with a meaning which they formerly did not have. U.I.L., for example, offers students the opportunity to improve academic skills. School elections and student government day gives students an insight into politics. On projects such as float building and decorating for parties, students, above all, learn to cooperate with each other.

LIFE AGAIN

The spirit of AHS may be seen in the activities of its students. The gym during a pep rally bursts under the pressure of excitement as students begin a competition yell. Excitement mounts as each class competes for the "Spirit Jug". The spirit of AHS may also be seen in the blaze of the Homecoming bonfire which beckons every student to join in the Homecoming activities. Before the tense basketball game between Alvin and Clear Creek, the school song echoes through the gym. An air of enthusiasm rises from the bleachers as the team proves worthy of such AHS spirit.

During these and many other activities students unite in an air of great enthusiasm and spirit. These activities are a vital part of the life of our high school, and the spirit they arouse makes one truly proud to be a Yellowjacket.

Senior students pose proudly around Spirit Jug, which came into their possession by winning the most times in the competition yell.

With spirit in the air and excitement in everyone's heart, the Senior girls engage in the annual Powderpuff Game with the Junior girls. An arousing pep rally was held to stimulate enthusiasm and present mascots, cheerleaders, and twirlers. During the rally, the Seniors exhibited "Saints" of blue, gold, and silver; the Juniors presented orange and purple polkadotted "Diddybugs". During an evening of ecstacy and fascination, the Senior Beau, James Mach, and the Junior Beau, Rick Pierson, were introduced. This brought to an end another action-packed Powderpuff Game leaving the Seniors exultant from a victory of 24-18.

Each year football assumes a special position among school activities. Such an event as Homecoming is inspiring not only to students and faculty but also to Exes of AHS. Floats, a parade, a spectacular game, and a dance commemorate Homecoming.

Later in the year, the Jackettes presented the annual football banquet to honor the AHS teams and coaches with Bill Yeoman of the University of Houston's coaching staff as guest speaker. The attendants of the banquet were also entertained vocally by Debra Parker and Diane Morris. After the banquet, guests retired contented and filled with pleasant memories of another active football season.

Queen Amy Garwood was crowned by King Dale Camp as the royal court watched with admiration. Captain Charles Thomas then ordered his Mates, Bobby Reese and Bruce Barnard, to set sail for ports o'call.

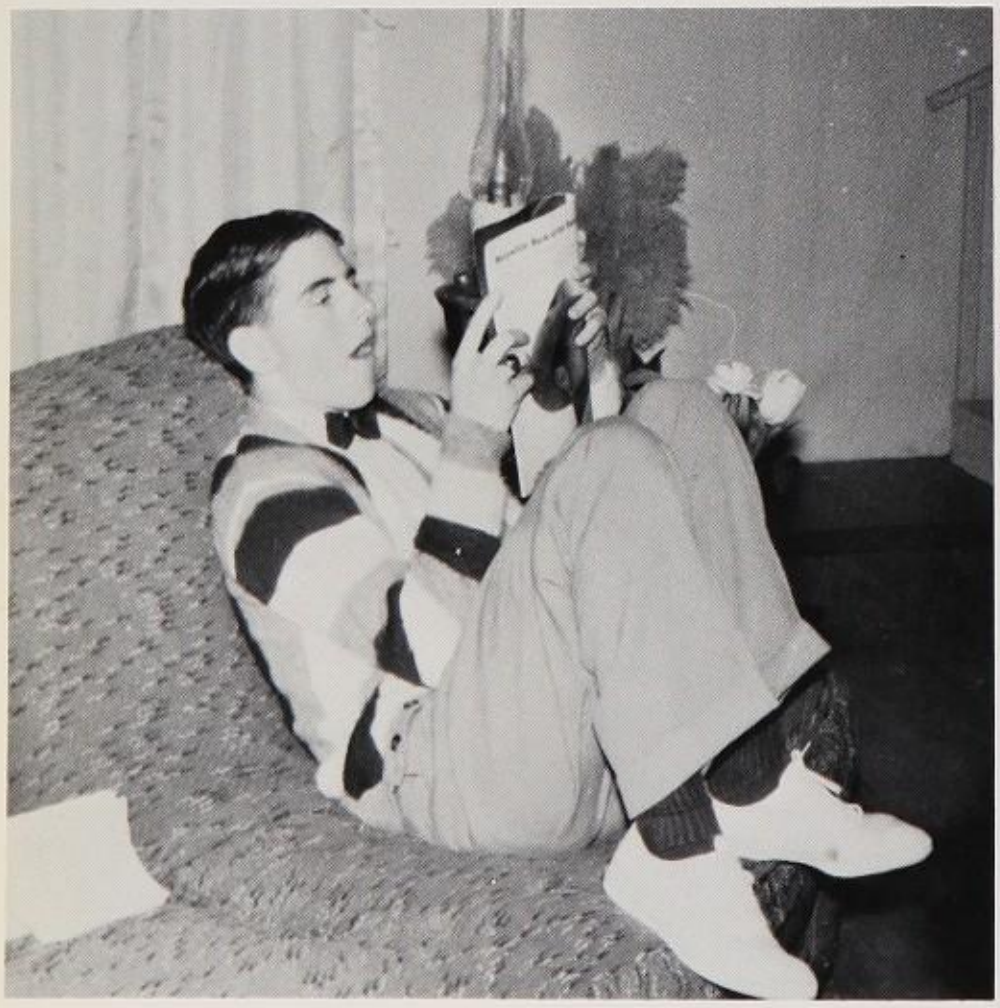
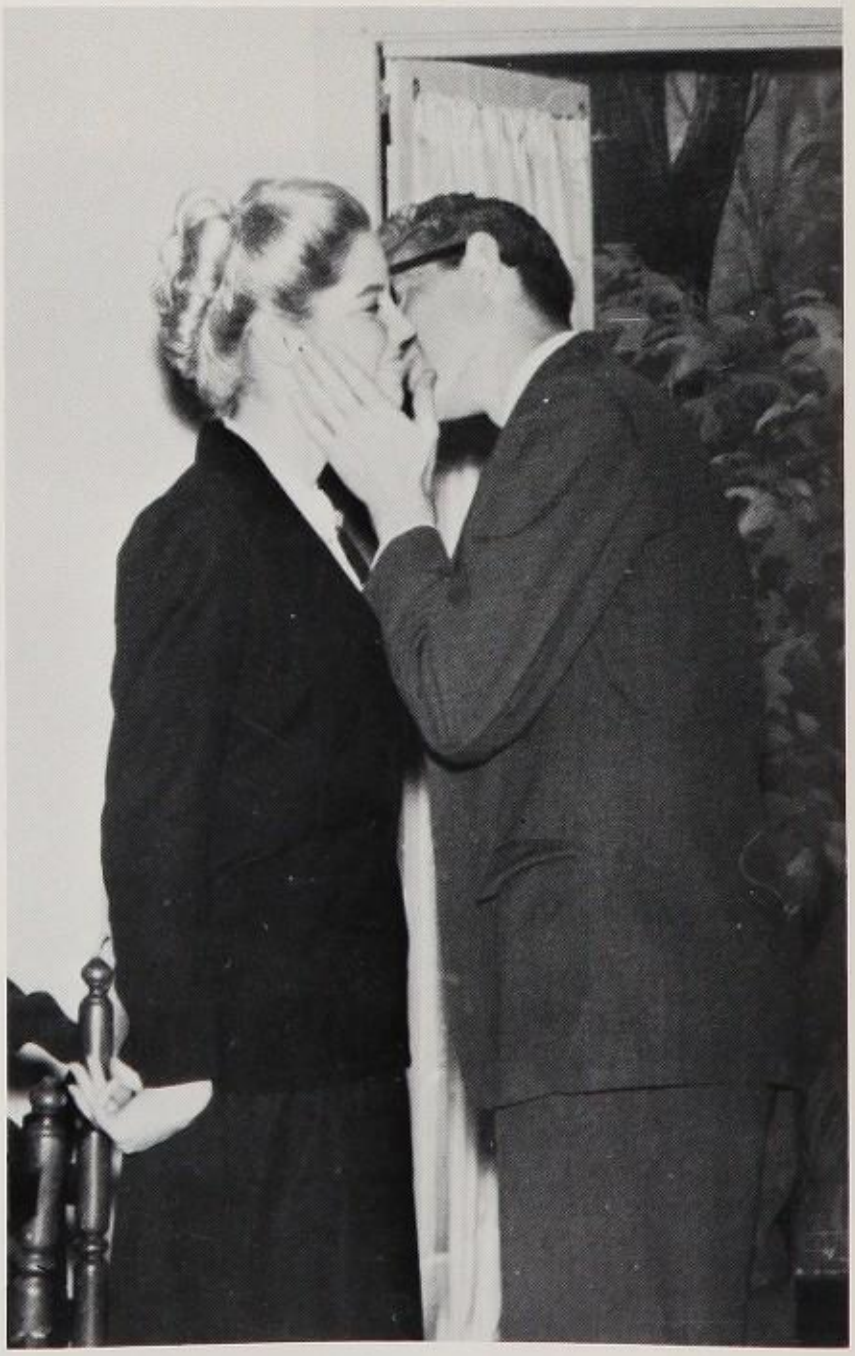
SENIOR TALENT REVEALED IN "CHEAPER BY THE



Hipster, Ronnie Jinks, a cheerleader, represents everything dear old Dad resents.



Efficient father, Bobby Kilborn, bids mother, Laura Booth, goodbye as he leaves for Europe.

Many dedicated afternoons of both work and pleasure were spent in preparation for the presentation of the Senior class play, "Cheaper By the Dozen." This popular story of an efficient, old-fashioned father confused by daughters who rebel for modern privileges is excellently portrayed under the guidance of Miss Judy Wolf. The time and effort put forth by the cast and all those involved was justified by the praise received, experience gained, and the satisfaction and pride in presenting another successful Senior play.

The Seniors gathered during the noon hour to have their costumes judged and watch skits presented by fellow students. Afterwards, the Seniors departed for the city park to eat and entertain themselves on the swings and in various other games. Everyone looks forward to the big event of the year, the Junior-Senior Prom. This is a night of enchantment for all. A night when commonplace things are transformed and become elegant. This is a night under the Parisian stars with the Eiffel Tower and the Arc of Triumphe standing magnificently in view. The French waitresses are selling poodles and souvenirs by the French Art Exhibit. Chairs along the sidewalk cafes are filled. People are dancing in formal attire and occasionally stop to have a picture sketched by the artist. The night is g o n e and everyone leaves with pleasant memories and the single regret that it was only one evening in Paris.

Seniors, Barbara Childress, Cathy Cleveland, Larry McKenzie, and Donald Brown, enjoy the refreshments during the Prom.

BANQUET HONORS SENIORS

Seniors, faculty, and school board members dined under the canopy of a Parisian sidewalk cafe at the '65 Senior Banquet. The French waitresses helped to create the Paris illusion while serving a characteristic meal.

"Allah! Allah! An old member's wish is but our command."

NEW MEMBERS WELCOMED TO SOCIETY

New members consider honor of their new position while waiting to be addressed.

Clothes inside out and backwars only are a part of the initiation of the new National Honor Society members. Flowered bonnets, ratted hair, huge earrings, gaudy bows, and pacifiers completed the remaining part of their wardrobe. The new members survived the day dressed in such attire while obeying the commands of older members such as walking backwards up the stairs or pushing lunch trays with their noses. But these initiates proudly suffered through the initiation with the honor of becoming a member of the NHS.

Some of the new members kneel while exhibiting some of the articles which made up their costumes.

There was an old woman who taught a mean school
With blackboard, projector, and a slide rule;
She hoped all her pupils in math would be smart,
But she loved them all dearly from the bottom of her heart.

She taught and she taught and the years went by;
Her pupils worked and slaved with hardly a sigh.
They listened to math; they listened to her
As she wished for a hound, not a kitten to purr.

Thirty years of teaching she managed to survive
Until along came that year, that fateful '65,
When a grand bunch of kids, the Yellowjacket group
Surprised the old teacher and "knocked her for a loop".

They bestowed upon her the annual dedication,
A truly great honor with the humbling reservation
The students thought her worthy of such a recognition;
To live up to such an honor is now her ambition.

Her spirits they had lifted; her joy knew no bound
When they made her a present of a darling Basset hound:
Finding enough words to describe the happiness involved
Is a mathematics problem the old teacher hasn't solved.

There is a little puppy, a frisky little hound
With long floppy ears and a loud joyful sound,
Who joins with his owner to say "Thanks a million!"
For a life full of fun and friends worth a billion!

As AHS expands, more faculty members are needed. This year we have added several new faculty members to the system and welcomed back many old members. These teachers, both old and new, experienced and inexperienced, have proved themselves well qualified in their respective fields.

A school can only function properly with leadership provided by the faculty. In addition to conducting classes, faculty members take time to sponsor club and extra-curricular activities. Through the concern and efforts of many of our faculty members we can now take many advanced courses. In language arts, advanced English, French IV, and German are offered; in math, elementary analysis and advanced math are offered; in science, biology II is offered. In every subject the students' needs are considered and the teachers strive to make their classes interesting to each individual.

Student activities, curriculum, and maintenance are some of the duties of our administration. Their decisions determine the basic policies followed by faculty and students as well.

Faculty, administrators and all other staff members contribute to the proper functioning of AHS.

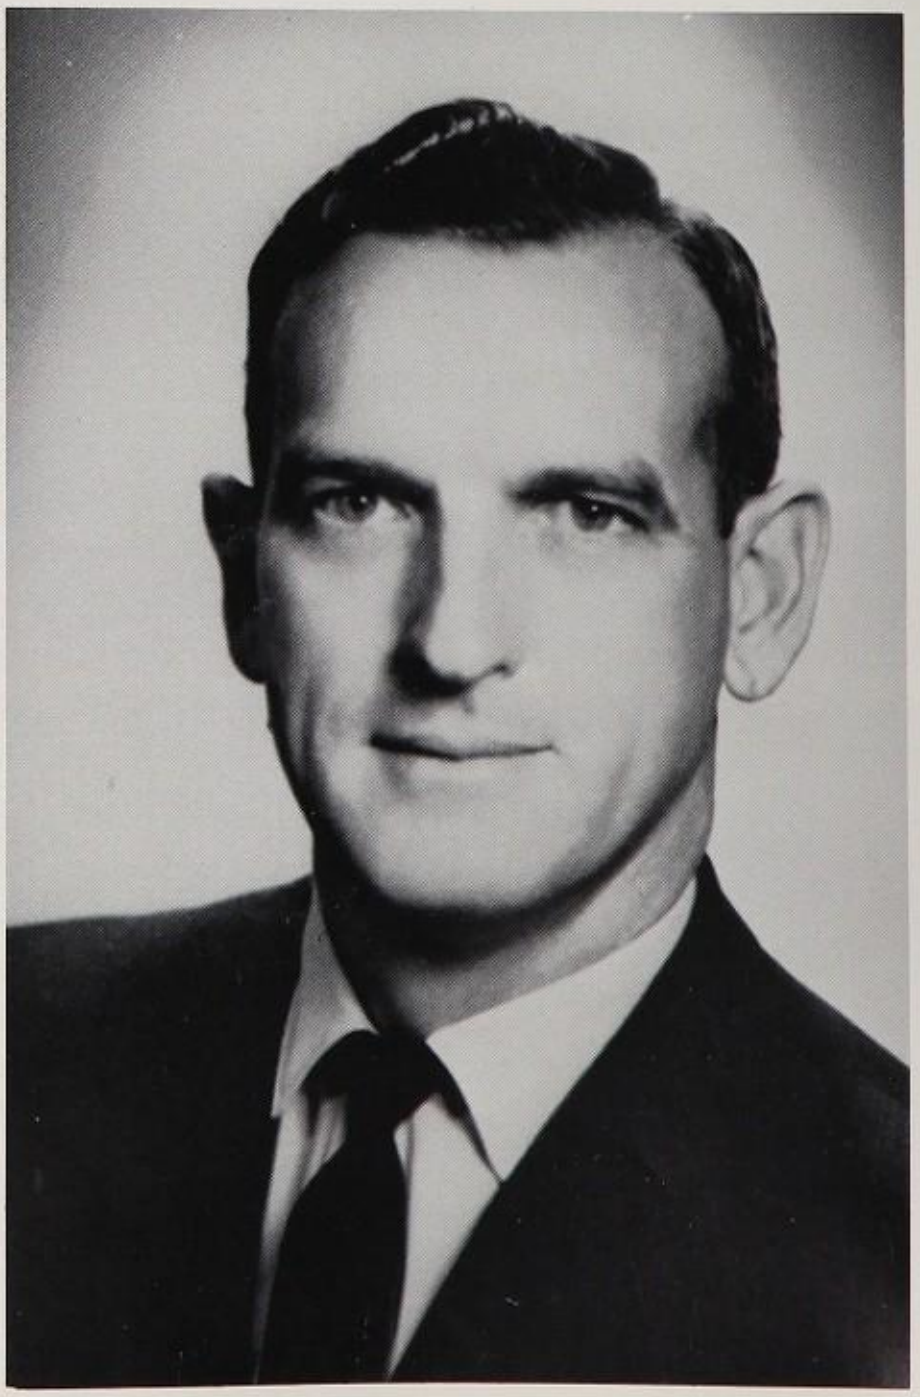
FACULTY

MR. PATRICK O'QUINN

In his first year as superintendent of the Alvin Independent School Distirct, Mr. Patrick O'Quinn has made many changes and innovations. He has instigated the program of instructing the prisoners at the Ramsey Prison Farm in Angleton, Texas. The superintendent has also begun a "suggestion system" for all teachers and administrators. With his quiet determination and eager desire to make improvements, Mr. O'Quinn has gained the respect of his co-workers. Mr. O'Quinn, admired by all around him, is an asset to our school system.

MR. JOHN McNIEL

Serving his first year as AHS principal, Mr. John McNiel has impressed everyone around him with his smooth running of the high school. Mr. McNiel's two previous years as assistant principal have made him aware of the problems our growing school presents, and he has handled most of the difficulties intelligently and successfully. Even though he is mild-mannered and quiet, the student body has come to realize that he is steadfast when a problem arises and unwavering once a decision has been made. Devoting all his time to the school administration, Mr. McNiel has rightly earned the admiration we give him.



WILLIAM E. REED

Co-ordinating the work of our school, the administrators efficiently guide and help the students. As assistant to Mr. McNiel, Bill Reed is in charge of disciplinary actions within the school. Miss Cope and Miss Biggers, the counselors, advise the students through testing and analyzing. The office secretaries, Mrs. Rogers and Mrs. Forgy keep in order the business involved in running a school.

Through the hard work of the librarian, Mrs. Stiles, and her assistant, Mrs. Childress, students have at their disposal an orderly and well-equipped library.

The administrators work hard to keep the school running smoothly. Every student benefits from their efforts.

Teaching the students to appreciate great works and to understand their language better, the English Department serves the school well. In teaching skills in typing, shorthand, notehand, bookkeeping and the fundamentals of economics, students spend the first part of the course learning the skill and the second half practicing. With a past to explain and a future to prepare us for, the history instructors of AHS cover the span of the ages. The teachers delve not only into facts but also into the lives and personalities of the historical characters we study. Through contact with the experiences of our ancestors, we learn of their problems and mistakes. The History Department offers us the chance to prepare for our lives by examining the lives of others.

As instructors in the fine and useful arts, these teachers instill practical culture in the students' education. Under the guidance of our music instructors, we can participate in such musical events as choir and band concerts, piano and organ recitals, and a musical play at the end of the year. Practical arts for boys—woodworking, metal shop, drafting, and vocational agriculture—are taught by well-qualified men. The homemaking department offers instruction in cooking, sewing, housing, and family relations. In the art class students may learn such crafts as painting, printing, tapestry, mosaic work, and sculpturing. The skills and talents that are developed by these teachers help the students appreciate and use their talents.

Through explaining the languages and customs of foreign countries, the language department helps us to understand the world around us. We learn not only the fundamentals and constructions of the languages, but also the habits and temperaments of the people. With a glance to the past in Latin and German classes, and a look to the future in French and Spanish classes, the language department explains the past and anticipates the future.

Instigating a new program of modern study, the mathematics department has increased its range and revolutionized its course of study. Plane and solid geometry have been combined as unified geometry; general math has been changed to related math; a fifth year of study, elementary analysis, has been added. By daring to make changes and to try new ideas, the mathematics department has become one of the most efficient in the school.

Equipped with spacious and modern facilities, the science department offers students the opportunity to investigate the wonders of matter and energy personally. There are a possible five years of science offered, from physical science to physics and laboratory studies. Dividing their time between classroom and lab work, the science teachers demonstrate, as well as explain, the various phenomena. By taking, five years of guided study, students gain a basic knowledge of the fundamentals and concepts of science.

FORMULAS INTRIGUE STUDENTS

Miss McCullough, Mr. Glasgow, and Mrs. Robinson work in their respective chemistry, physical science, and biology labs.

As our high school and each class have expanded in size, our students have expanded academically, socially, and emotionally. Each class has completed a year of development and experience.

Students in these classes are faced with many challenges and responsibilities as they progress through school. Perhaps the greatest is to learn to cooperate as a class and work as a unit to make each class the best one yet. Such activities as the Homecoming parade float building, the Powder-puff game, and prom preparation require this cooperation. The growth of AHS and the success of its activities are dependent on each student and how well he lives up to this challenge.

OUTSTANDING

The varied interests of the Seniors were revealed when the teachers selected Outstanding Seniors. Some of these students are class officers, Student Council members, cheerleaders, and annual staff members. Others are leaders in student govern-

Carla Beaver and John Carlton were chosen by their fellow classmates as the Senior girl and boy most representative of their class. Carla has been a cheerleader for four years, and John is a national merit scholarship finalist. Both serve as Student Council officers and have served as class officers, representing their class's high ideals and standards.

Seniors, realizing this is the final year at AHS, begin the year with spirit and interest beyond compare. Victory seemed to be the Seniors' password as they won with the Homecoming parade float, Powderpuff, and the Spirit Jug. Seniors wound up a busy year by ordering graduation invitations, measuring for caps and gowns and taking college board entrance tests.

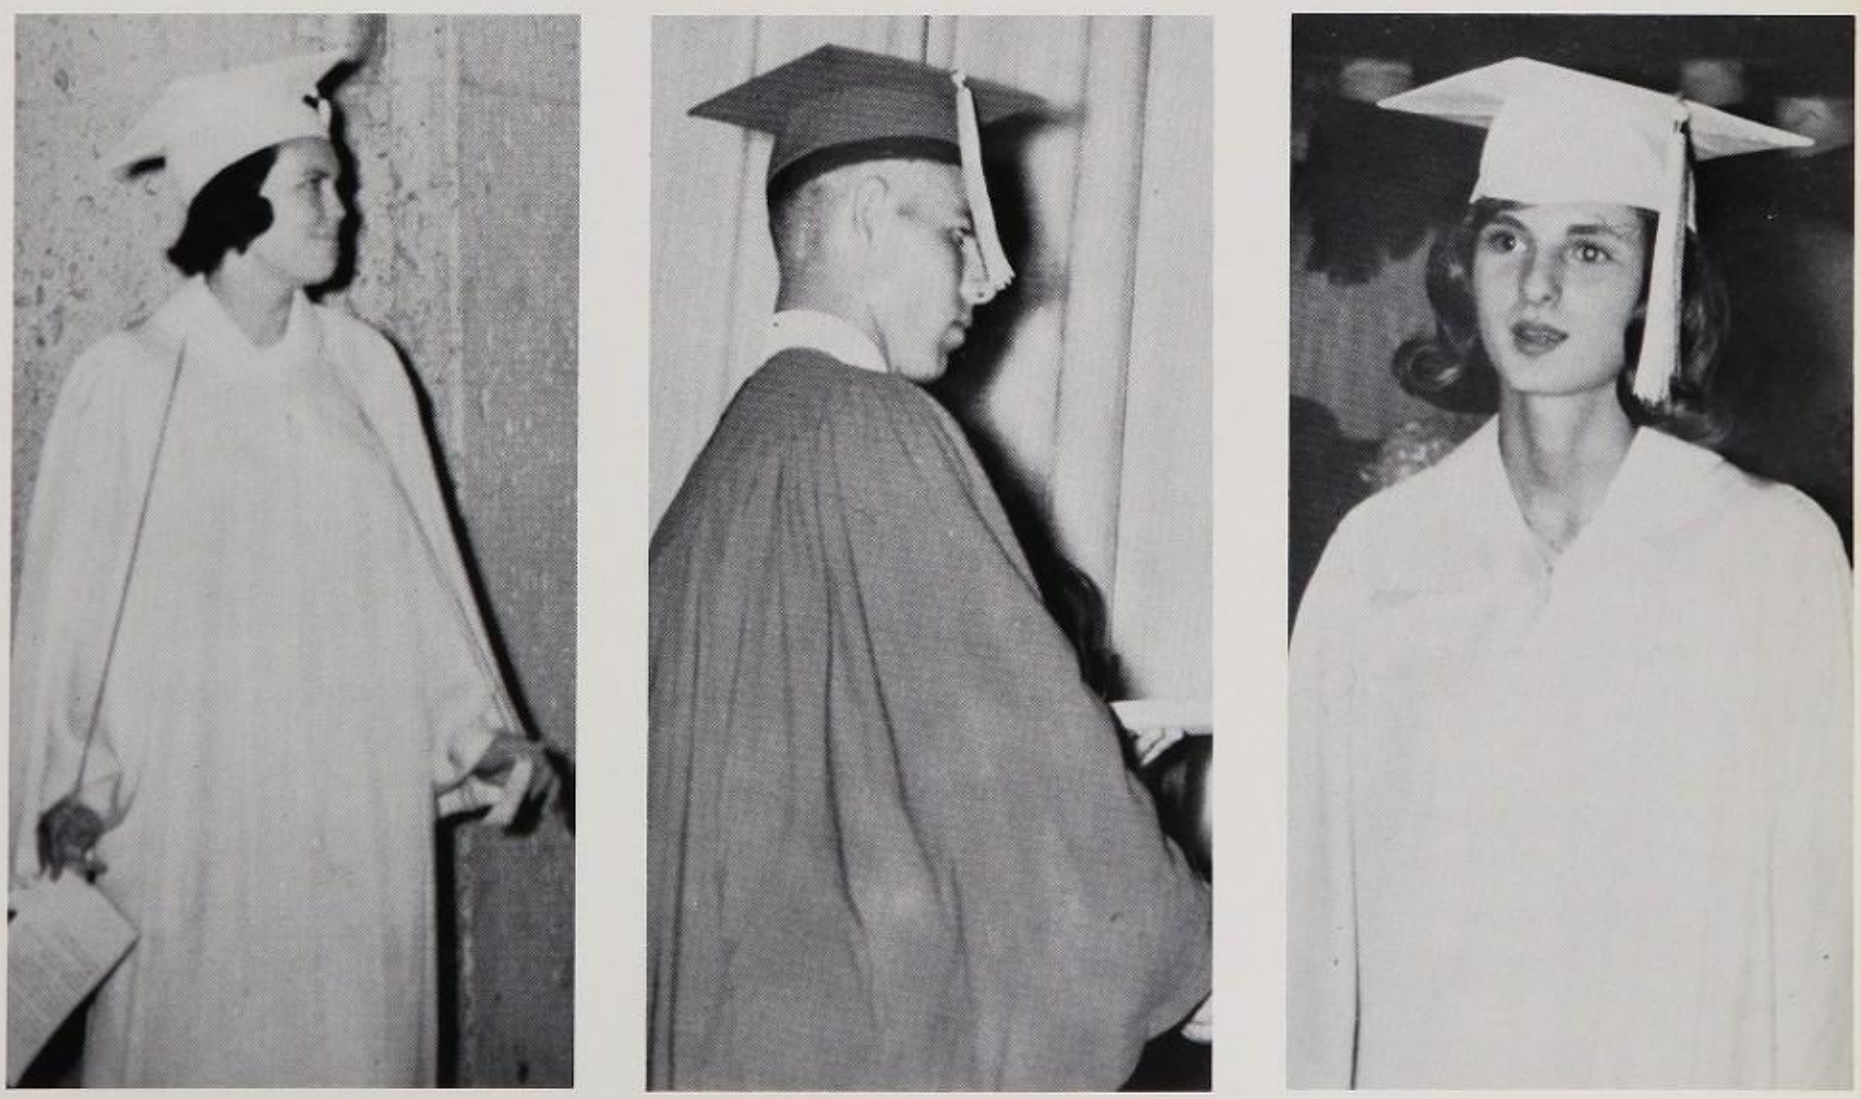
"HATS OFF TO YOU"



Excited, solemn, and starry-eyed Seniors receive their diplomas, which is the climax of their Senior year. The conclusion comes the next morning when they return to pick up their report cards.

Rachel Adams and Billy Childress are elected by their classmates as "Most Representative" Junior girl and boy. Rachel is a member of the annual staff, is a member of the tennis team and is an A student. She has been an Alvin Yellowjacket cheerleader for two years and has worked on the Student Council. Billy is also an outstanding student and sportsman. He has lettered in football, basketball, baseball, and track. He has also proven his leadership as a member of the Student Council and Athletic Club.

1964-65 has been a busy year for the Juniors. They started the year off by sponsoring the Junior-Senior Powderpuff Game and Twirp Dance. Next, they worked together and built a float which won third place in the Homecoming Parade. At the close of the year, the Juniors helped to sponsor the Junior-Senior Banquet and Prom.

Guy Wellborn has been selected as a participant in the mathematics workshop at Oregon State University.

Kandace Kennedy and Don Methvin are showing that it takes more than popularity to be representative of the Sophomore class. Although both are top students, Kandace is co-editor of the Junior Annual. Don participates in such sports as football, basketball, and baseball, and is president of the Sophomore class, and a member of the Student Council.

Hard work and long hours win Sophomores second place in homecoming float competition and victories on the athletic field. High academic averages also qualify sophomores for awards in UIL literary competition.

Sophomore class officers are: Carol Hankamer, Parliamentarian; Ruth Holdorff, Secretary; Carol Klinar, Treasurer; Don Methvin, President; and Steve Rogers, Vice-President.

Edith Hunter well deserves the title of Most Representative Girl of the Freshman class. She serves as class president and as a member of the Student Council. The Freshman band members elected Edith as their representative, and she plays first chair flute, which is quite an honor for a Freshman. Even though Edith participates in many activities, she has a high academic average.

The Freshman class made a good choice in electing Jesse Caldwell, Most Representative Boy. He lettered in football and played basketball and baseball. By earning a place on the Fall semester "B" Honor Roll, Jesse proves that, although he may be active in extra curricular activities, he can also make good grades.

Five alert officers lead the Freshman class. They are: Janet Rosenbaum, Secretary; Edith Hunter, President; Bruce Barnard, Vice-President; Becky Adams, Treasurer; and Jan Hughes, Parliamentarian.

Sports play an important part in the life of our high school. The band, the cheerleaders, the Jackettes and various other organizations all contribute to make sports events a success. Through the combined efforts of coaches and players many promising teams have been formed. The football team fought hard against strong opponents; the basketball team and girls' volleyball team placed second in district; and the baseball team had an admirable season.

The school and the town as well display their interest by turning out for all sports events. The spirit of the Yellowjackets, cheering their teams to victory, echoes from the bleachers and is renewed as each different school year begins.

THE 1964-65 YELLOWJACKETS

Captains Jerry Spinks and Jim Stinson directed the 1964-65 Yellowjacket squad through a season of joy and disappointment. They were faced with the difficult task of boosting the team's spirit and morale. During the course of the season, they were called upon many times to make decisions which required good judgement and a workable knowledge of the game. The Jackets had a fair record and showed much improvement throughout the season.

Throughout the football season, Mike Smith, John Mathison, and Bobby Kilborn boost the team's morale, as well as fulfill the usual demanding duties required of a manager.

Our school offers many and varied clubs in which students may participate. Students have the opportunity to do anything from learning to play chess to learning about the functioning of a hospital.

Many of the clubs pursue their interests and activities outside of club period. The activities of the clubs include lectures, demonstrations, projects and field trips.

Clubs serve an important part in our lives by opening new doors of interest for many, benefiting the school as a whole through their activities, and providing entertainment. More important, they teach us leadership and cooperation.

BAND IN STEP

The Alvin High School Yellowjacket Band, under the direction of Mr. Phil Armstrong, is the largest organization in our school. The band members act as spirit boosters during football season, and perform very enjoyable half-time shows, which are the result of much hard work and co-operation on everyone's part. However, the band does not disappear after the football season ends.

There are still contests and concerts which continue to call for everyone's hard work, and this year the band members received many first and second place ratings in individual and concert competition. As members of the music department, the band members help with the presentation of a musical in the spring. The study of music even in band classes is not limited to just playing that instrument. Many aspects of music, performance, and working together, are taught to create an outstanding band.

Mr. Armstrong directs the band with knowledge and enthusiasm.

Many Alvin band students ranked as First Division winners in the UIL Solo and Ensemble contests this year.

The election of the favorites is an important time at our school. They are elected by secret ballot by the students of AHS. With a growing student body of over nine hundred, it is quite an honor to be selected. All school favorites, in addition to class favorites, are chosen throughout the year.

The student body as a whole takes the elections seriously and tries to select deserving persons for each position. Beauty, popularity, and representation are just a few of the qualities for which our favorites are chosen. We are proud to have these students to represent our school and its honors.

Without advertising there could be no annual. Advertising is the main way by which the annual is financed. The importance of advertising has been impressed on our annual staff throughout the year.

Most businesses in Alvin and surrounding areas have been friendly and receptive to the members of our annual staff. Because of their cooperation we are able to have a bigger and better annual this year.

OUR NATION DEPENDS ON ITS YOUTH

Not too long ago, a college education was considered a luxury enjoyed by a privileged few or a necessity only for the exceptionally-gifted student. Yes, a high school diploma was, in many instances, the passport to many good, well-paying jobs in business and industry.

However, the recent gigantic strides in progress, the realization that our nation is not as far out in front as we would like it to be, the knowledge that at the present rate our world is going to be a vastly different one than we have ever known—all add up to the fact that our nation's position in the coming years, and yes, perhaps even its very survival, depend on the men and women of tomorrow.

This means that, increasingly, youth has more to learn than his father before him in order to reach even relatively the same position. Add this fact to that of our present position . . . the necessity to learn in order to survive . . . and we see how important it is that our youngsters receive the best and most education that is possible.

YOUTH: It is your bound duty to yourself and your country to remain in school and learn all you can.

ADULTS: It is your obligation to help our youth become the most well-informed, clear-thinking individuals in the world.
